Research
changes
the world

ResearchMaster gives you the data management, collection and reporting tools to manage processes across the entire research lifecycle. This leaves you to focus on developing research that impacts the way we live.

The future is in your hands

"Every minute we save on research management in the beginning of the process translates to hours we can focus on research development."

Introducing ResearchMaster

For over 20 years, ResearchMaster has managed important research processes for leading Australasian Universities and Research Administrators.

To this day we continue to be the leading provider of research management solutions in Australia and New Zealand.

ResearchMaster is a DCA, Database Consultants Australia, company. DCA are leaders in developing innovative data solutions for businesses, governments and higher education institutions.

Your research changes the world; our suite of products streamlines and manages all aspects of the research lifecycle across your organisation to give you the freedom to focus on research development.

We offer a complete product suite that manages all aspects of the university research lifecycle, including pre & post award grants, research outputs, ethics and postgraduate students.

The ultimate combination of our products comes together in our market-leading ResearchMaster Enterprise solution. This powerful research management solution seamlessly collects, manages and reports on the full lifecycle of research activities across your organisation. ResearchMaster Enterprise solution also solves day-to-day operational problems through automation and workflow processes, and assists with long-term and strategic issues through its reporting and integration tools.

We welcome the opportunity to discuss how we can support you and your organisation to focus on producing research that changes the world.

The future is in your hands

ResearchMaster Enterprise Solution

Every University and Research Office is different. Your processes, research charter and resources all affect your unique research management needs. Our market-leading ResearchMaster Enterprise Solution is designed to provide a comprehensive solution to all your research management needs.

ResearchMaster Enterprise (RME) is the most comprehensive research management data solution on the market. It's a highly automated, fully integrated, research data management system which has been designed, developed and is supported in Australia.

MANAGE THE DAY-TO-DAY BETTER

This research management solution solves day-to-day operational problems through automation and workflow processes. RME enables you to seamlessly collect, manage and report on the full lifecycle of research activities across your organisation.

Our data management solutions within the full RME product suite includes:

- Grants Management
- Contracts Management
- Higher Degree Research Management (HDR)
- Ethics Management
- Outputs Management

GET THE DATA YOU NEED FOR A CLEAR RESEARCH VISION

ResearchMaster Enterprise dashboards and reporting tools help identify and solve hidden systemic and long-term issues. This assists to illuminate the path forward where decisions impact the future of your organisation's research plans.

"From the moment a research candidate contacts us, we want our processes to reflect our expectations of quality."

Higher Degree Research Management Solution

You want to recruit the highest calibre candidates for Higher Degree Research projects. Ultimately, their research can change the world. ResearchMaster's Higher Degree Research (HDR) Management Solution allows you to easily manage, integrate and monitor all phases of your HDR candidature requirements from initial application, enrolment, ongoing progress to final outcome.

ResearchMaster's HDR Management Solution starts from managing the initial application and extends throughout the entire research experience. Smooth and efficient HDR administrative processes improves the research experience for academic staff, candidates and graduate research administration staff.

STREAMLINE PROCESSES FOR MAXIMUM EFFICIENCY

Manage and monitor the HDR candidature lifecycle from application and enrolment through to submission, examination and completion.

Streamline and automate processes such as milestone management, candidature variations, thesis submission and examination using eForms and Workflow technology.

Manage and monitor scholarship recipients including application, approvals, variations and payments throughout the candidature lifecycle.

CONNECT INFORMATION FOR BETTER RESULTS

Link candidates to other research activities including ethics applications, projects, contracts and research outputs.

Use automated online progress reviews and candidature management forms to minimise your administrative overheads and improve both your data quality and service delivery to students.

ResearchMaster Modules

Your research management needs may range from data management, data collection or reporting. ResearchMaster has a range of research management solutions and products to suit your organisation.

For total solutions that combine end-to-end research management, you can choose from:

- ResearchMaster Enterprise Solution
- Higher Degree Research Management Solution

You may prefer to pick and choose from modules and combine them in a way that solves your research management needs. We offer modules such as:

- Grants Management
- Contracts Management
- Ethics Management
- Outputs Management
- Engagement and Impact Data Management
- ERA Assist

ResearchMaster Tools

ResearchMaster are experts in developing time-saving tools that make sure your time is used as efficiently as possible. We are market leaders in offering:

- Dashboards, Portals and Reporting Tools
- Costing and Pricing Tool
- eForms and Workflow Tools

"Knowing I can add products and tools as we need them makes this the right solution for us."

GRANTS MANAGEMENT

We make it easy to create, track and manage the research grant lifecycle from notice of intent through to project completion, including project funding and finance.

OUTPUTS MANAGEMENT

Manage and monitor research outputs from initial notification and peer review through to reporting and impact.

CONTRACTS MANAGEMENT

Create, track and manage research contracts and intellectual property records, easily manage standard clauses, variations and contract terms.

ERA ASSIST

Eliminate double data entry by mining existing data and enable users to easily identify ERA-eligible researchers and research outputs or to capture HDR co-supervisor details.

ETHICS MANAGEMENT

We help you to capture, track and manage all Human, Animal & Biosafety applications and approvals.

ENGAGEMENT AND IMPACT DATA MANAGEMENT

Fully integrated ERA Assist with Engagement and Impact reporting tools, purpose built to match ARC guidelines.

ResearchMaster Difference

Your time is limited and demands are many. ResearchMaster are experts in developing time-saving tools, solutions and services to make data management more efficient for candidates, academics and administrators.

Our best-in-market advantages include:

RESEARCHMASTER TOOLS

Dashboards, Portals and Reporting Tools

Customisable dashboards, showcase portals and reporting tools to highlight research in train, research outputs and actions needed.

Costing and Pricing Tool

Fully integrated web based costing and pricing tool designed for researchers.

eForms and Workflow Tools

Innovative eforms and workflows technology providing administrators with the power to develop and customise online forms across multiple functionality areas and seamlessly link them into business activities.

RESEARCHMASTER INTEGRATION

Our modules offer seamless integration with University corporate systems including Finance, Student, HR and Repositories using REST based web APIs or provider-agnostic feeders. We also offer purpose-built integration solutions such as Symplectic Elements™, ARC Grants, NHMRC Grants, NHMRC HREA, ORCID.

RESEARCHMASTER SERVICES

Complete Cloud Services

Our 'one-stop-shop' Cloud services means that application designers, programmers, installation, administration and support staff of your mission-critical systems are all under one highly capable roof.

Support Services

ResearchMaster puts client satisfaction and support at the top of our priority list. We offer a dedicated Engagement Manager, helpdesk, implementation assistance and training services with our highly specialised and expert team.
